

CFCCN Leaders Qualify for Professional Growth Hours

Be a CFCCN Leader! Obtain Professional Growth Hours!

To renew a Child Development Permit, you must plan a program of professional growth activities in consultation with a professional growth advisor.

One of the ways to earn professional growth hours is to provide service in a leadership role in a professional organization. Examples of acceptable activities are serving as an elected officer, serving as a chair of a committee, acting as an official representative of an organization of professional early childhood educators, and acting as an advocate for early childhood education programs on behalf of the organization.
